OFHSA believes in creating meaningful partnerships that support student achievement and well-being through parent engagement.

The goal of parent engagement is to increase student achievement.

Engaging and empowering Home and School Association members, parents, schools and families as active participants and contributors to public education, we help create healthy, accepting schools and vibrant communities.

OFHSA's vision for parent engagement is clear -- when public schools and families support each other, students of all backgrounds succeed in school and in life.

Thank you for your support,
